Fiert Is Said to He Rendered Useless For Future Service.

New York, Sept. 1 .- A special to The Tribune from Newport News, Va., says: It is learned from a trustworthy source that a number of the warships now at anchor in Hampton Roads off the Chamberlain and Hygea hotels will become the objects of unfavorable reports by the board of surveys, which began its work of inspection last week. The condition of not a few of the best known ressels of the mosquito fleet is said to be rendered useless for either the purposes of peace or war until extensive and costly repairs have been made.

It is not probable, however, that the Dixie will leave the Baggageman Charles Desmond, New naval service, and it is understood that Captain Higginson, as president of th David Mills, Oswego, legs bruised and | board of inspection, will recommend that this ship be retained by the government. The Dixie carries ten 6-inch guns, the heaviest armament placed on an auxiliary cruiser, and in fact that she stood the test so well reflects great credit upon her builder. The board made a thorough examination of this ship and found her to be as stanch as when she

set sail on her mission of war. MUST BE RESPECTED. Miss Clara Barton Will Have to Comply With the Laws.

Washington, Sept. 1 .- Miss Barton probably will be obliged to pay the duties and fines imposed by the Spanish officials at Havana upon the cargo of the relief ship Comal if she desires to secure the admission of the supplies to Havana and their distribution. The information that reached our government as to the imposition of these charges came from the British consul at Havana, who Cleveland, Sept. 1 .- President Mc is charged with the care of the United Kinley and party left Cleveland for States' interests.
